FOR IMMEDIATE RELEASE

Rexnord launches adapter-mounted ball bearing designed for efficient installation and time and money savings

Milwaukee, Wis. – August 14, 2011 – Rexnord is introducing the patented SHURLOK® Adaptor-Mounted Technology to its Heavy Duty Ball Bearing product line, helping improve operational efficiency and reduce installation errors.

The new Link-Belt® PA 300 Series HD SHURLOK Adapter-Mounted Ball Bearing allows for easy installation and removal; its one-piece housing unit is factory pre-lubricated with pre-set clearances. The tapered adapter sleeve assembly enables easy removal with no field assembly requirements.

The Spyglass™ Optical Strain Sensing Technology (OSS) reduces installation errors due to over-tightening or under-tightening. The positive locking tapered adapter sleeve assembly maintains shaft-mounting tightness.

The HD SHURLOK anti-rotation pin prevents the rotation of the outer ring in the housing due to unbalanced load or vibration.

“The HD SHURLOK adaptor is an innovative extension to our Link-Belt Heavy-Duty set screw ball bearing line, providing customers a new alternative to set screw adaptors,” says Aaron Loomer, Rexnord Commercial Market Manager, Ball Bearings. The adapter sleeve design provides superior holding for commercial grade shafting (up to -0.004”). The HD SHURLOK adaptor design also provides superior holding force and load capacity for high-performance applications.

The Link-Belt PA 300 Series HD SHURLOK Adapter-Mounted Ball Bearing is best used in applications for air handling, package handling, forestry, aggregates, steel and mining.

For more information on the Link-Belt PA 300 Series HD SHURLOK Adapter-Mounted Ball Bearing, contact Rexnord Customer Care center at 866-REXNORD (866-739-6673) or visit Rexnord’s Web site at <http://www.rexnord.com>.

About Rexnord Industries, LLC

Headquartered in Milwaukee, Wisconsin, Rexnord manufactures and supplies highly engineered products, including bearings, couplings, gears, modular conveyor belting, and industrial chain, serving a broad range of customers worldwide. Customers worldwide have consistently relied on Rexnord for efficiency, knowledge and experience to deliver dependable solutions at the lowest total cost of ownership.
