

# Why Choose Falk™ Lifelign™ Gear Couplings?

## **AFFORDABILITY**

Lifelign gear couplings are a cost-effective option. The industry's highest torque rating and largest bore capacity result in savings of up to 35% compared to the competition.

## **INCREASED UPTIME**

Long Term Grease (LTG) lubrication and a four-point seal provide maximum lubrication retention, extend the coupling life and contribute to reduced maintenance needs.

## **BETTER EQUIPMENT PROTECTION**

Lifelign's triple-crowned teeth are crowned on the root, tip and face to articulate freely, minimizing wear caused by misalignment. The triple-crowned teeth protects equipment from damaging loads by eliminating tip-loading while reducing backlash and radial clearances.

## **INTERCHANGEABILITY**

AGMA bolt pattern, half for half interchangeability makes Lifelign a replacement option for other gear coupling brands.

## **INDUSTRIES SERVED:**

- Aggregates
- Construction Machinery
- Forest Products
- Material Handling
- Mining
- Pumps & Compressors
