<sup>1</sup> The gearing in Falk Drives factory filled with Falk GMax 6000 Lubricant shall be warranted against tooth failure due to excessive wear or surface distress. This warranty is limited to surface-hardened gearing only and is fully dependent upon the proper maintenance and care of the Falk GMax Lubricant. This includes, but is not limited to, documentation of regular and customary oil sampling to ensure performance of the lubricant. This warranty does not cover bearings, seals, through hardened gearing, or other parts of the gear drive.

100-003 Rexnord Extended Warranty dated Effective 11/01/19. Supersedes document dated 01/06/17 and all other documents.
