

Why Choose Rexnord?

When it comes to providing highly engineered products that improve productivity and efficiency for industrial applications worldwide, Rexnord is the most reliable in the industry. Our commitment to customer satisfaction and superior value extends to every area of our business.

Delivering Lowest Total Cost of Ownership

The highest quality products are designed to help prevent equipment downtime, increase productivity and deliver dependable operation.

Valuable Expertise

An extensive product offering is accompanied by global sales specialists, customer service and maintenance support teams, available anytime.

Solutions to Enhance Ease of Doing Business

Our commitment to operational excellence means you benefit from getting the right products to the right place at the right time.

Why Choose RexCarbon Roller Chain?

Maintenance-Free Chain

RexCarbon Maintenance-free Roller Chain incorporates high-technology thermoplastic, sliding sleeves that require no relubrication. The chains feature an extremely long working life and high wear resistance.

Benefits include:

- No labor or scheduled down time for relubrication
- No quality issues from cross-contamination of lubrication products
- No premature failure and/or replacement of chain due to lack of lubrication
- No cost of lubricants

Quality and Traceability

All RexCarbon Roller Chain is subjected to rigorous in-plant testing and inspection, and documented for future reference.

Benefits include:

- Designed and tested to demanding engineering standards ensuring the maximum service life
- Tested to failure under extreme loads/conditions to verify ultimate tensile strength and other material properties
- Subjected to 100 percent dimensional inspection by calibrated camera systems on assembly line to ensure conformance
- Identified with batch data to provide traceability of every meter of RexCarbon Chain back to raw materials and manufacturing data

Global Support and Availability

Rexnord's commitment to customer satisfaction is reflected in a strong support system for customers and distributors.

Benefits include:

- Availability of product experts to answer questions and provide recommendations
- Reduced lead times with product inventory in Europe and the U.S. ensuring the right product at the right place at the right time

RexCarbon – The Maintenance-Free Roller Chain

- Utilizes thermoplastic sleeves for high durability and long life
- Pre-lubricated with food grade grease for corrosion resistance; No relubrication required
- Environmentally friendly with low noise
- Ideal for sensitive applications including paint booths or food/beverage production
- 100 percent dimensional inspection and batch traceability
- Temp range from -40 °C to 100 °C
- Special versions available for temps to 175 °C
- Also available as multiplex chain

Process & Motion Control Products & Solutions For Your Business
