

## EYE-LINK

The Industry's most versatile and durable metal modular belt

### Eye-link

- Fast and easy modular replacement
- Variable wire spacing available
- Reduced downtime and maintenance
- Ideal for all food processing applications

#### BeltTechSpecs

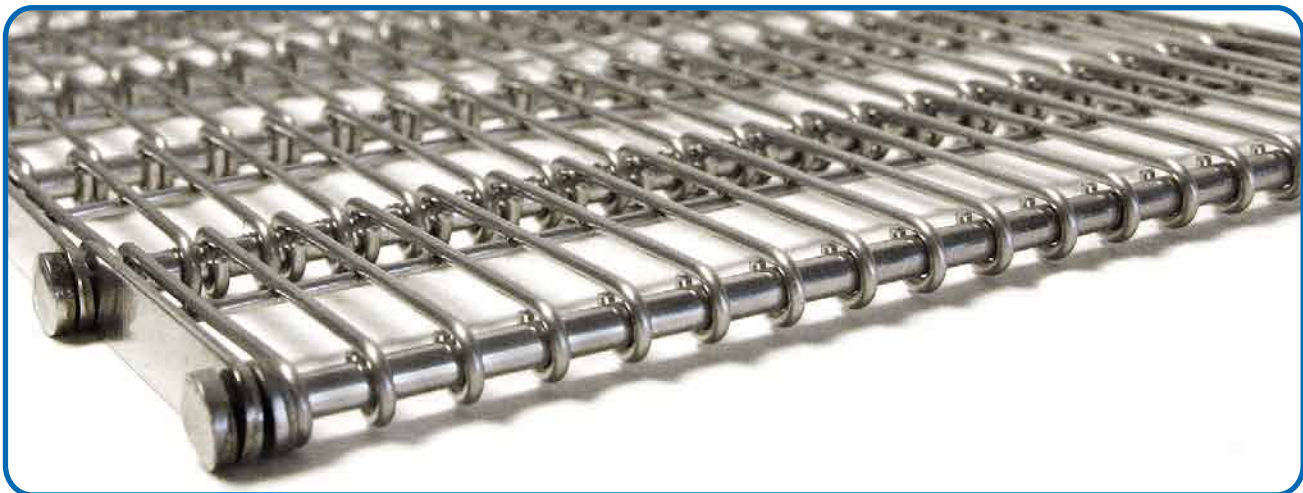

- Widths up to 156" (3960mm)
- Speeds up to 200fpm (61mpm)
- Temperatures up to 1000°F (538°C)
- Materials: T316SS, T304SS

#### Applications

- Packaged Products
- Washing
- Steaming
- Broiling
- Frying
- Breeding
- Battering
- Cooling
- Freezing

#### Advantages

- Flattest mesh belt surface available - Uniform product support and minimal marking
- Modular design allows for fast replacement of modules
- Single level surface -Prevents product entrapment and allows excellent air/liquid circulation with minimal carryover
- Numerous configurations for any type of food processing applications
- Reduced downtime and maintenance

**Eye-Link: More Efficient, More Economical**
