

Questions about Water Screens?

You have come to the right place.

How may we help you?

- General questions?
- Pricing/Proposal?
- Custom solution for water intake debris removal?
- Assistance in developing a specification as part of a bid project?
- Questions about the EPA Clean Water Act, Section 316(b) Impingement and Entrainment compliance?

No two water screen projects are exactly alike. That's why Cambridge provides custom engineered solutions.

Cambridge provides design services and in-house manufacturing of new and replacement Traveling and Static Water Screen Systems.
