## Rexnord Premium Service Minimize Downtime and Reduce Cost

Many customers using Rexnord TableTop® and MatTop® products are interested in how to increase their chain life and determine when it is time to replace chains. Rexnord Premium Service provides our customers with tools to identify all Rexnord products for each conveyor application including quantities and condition check of each chain, belt, sprocket or curve. This beneficial service will guide customers in preventive maintenance, reduce chain replacement cost and guarantee that the correct items and quantities are in stock in the event of emergency breakdowns.

Rexnord Premium Service makes use of online data processing. All product types, quantities and descriptions are made available online which enables access to line status from any location. All data is stored in a secured area.

## Applications

**One-way filling line**

**Returnable filling line**

# Reduction of Maintenance Cost

## Premium Service Results in Reduction of Maintenance Cost

The benefit of Rexnord Premium Service is reduction of maintenance cost by identifying an optimum chain replacement point for each conveyor. This means that conveyor chains are not replaced unnecessarily helping to reduce chain replacement cost. Furthermore, it is possible to avoid chains being replaced too late avoiding the cost of unscheduled downtime.

## Plant Survey to Identify Rexnord Conveyor Components

The initial survey includes identification of all Rexnord conveyor chains and accessories (sprockets, idlers and corner tracks). All information is linked to the conveyor motor number which is used as the location reference on your line.

## Wear Status Check-up

During the plant survey, the wear status of all Rexnord components (chains, belts, sprockets, idlers, curves) is checked. The wear status check up can be followed up on an annual basis. Our experienced application engineers will evaluate the status of all the conveyor chains and components and the data will be updated online.

Premium Service Options			
Application Type	Line Type	Code Number	Premium Service Annual Update
One-way filling line	Glass/Can/PET	799.99.68	799.99.70
Returnable filling line	Returnable Glass/Ref PET	799.99.67	799.99.69

Rexnord Premium Service is available globally. Contact your local Rexnord representative for more information or to obtain a quote.

## Why Choose Rexnord?

When it comes to providing highly engineered products that improve productivity and efficiency for industrial applications worldwide, Rexnord is the most reliable in the industry. Commitment to customer satisfaction and superior value extend across every business function.

### Delivering Lowest Total Cost of Ownership

The highest quality products are designed to help prevent equipment downtime and increase productivity and dependable operation.

### Valuable Expertise

An extensive product offering is accompanied by global sales specialists, customer service and maintenance support teams, available anytime.

### Solutions to Enhance Ease of Doing Business

Commitment to operational excellence ensures the right products at the right place at the right time.

## Rexnord Corporation

Rexnord is a growth-oriented, multi-platform industrial company with leading market shares and highly trusted brands that serve a diverse array of global end markets.

### Process and Motion Control

The Rexnord Process and Motion Control platform designs, manufactures, markets and services specified, highly engineered mechanical components used within complex systems where our customers' reliability requirements and the cost of failure or downtime are extremely high.

### Water Management

The Rexnord Water Management platform designs, procures, manufactures and markets products that provide and enhance water quality, safety, flow control and conservation.
