

Why Choose Rexnord Thomas XTSR71 Couplings?

UNSURPASSED IN PROVEN RELIABILITY AND QUALITY

Rexnord® Thomas® Disc Couplings are engineered for long life. Our experience and dedication to conservative design standards ensure maximum reliability on the most critical power train systems.

ADAPTER SERIES COUPLING

The hubs are pilot-fitted to the factory-assembled center member. The design allows for repeatable installations without special tooling.

API 610 AND API 671 STANDARDS

The Rexnord Thomas XTSR71 Disc Coupling can be manufactured to meet API 610 and API 671 standards.

HIGH-GRADE BALANCING

When a high-grade balancing is required, the Rexnord Thomas XTSR71 Disc Coupling is the ideal coupling to use. The coupling is manufactured to meet AGMA Class 9 balance.
