

POWER TRANSMISSION SOLUTIONS FOR COOLING TOWERS

ADDAX® COOLING TOWER BRAKES

- Secures equipment from damage during high wind event/storm (hurricane typically)
- Protects personnel doing maintenance inside the cooling tower cell
- Universal brake mounting for easy installation

Find out more, see the Addax Brakes Product Sheet [CP5-011](#) in our Documentation Library: rexnord.com/documentation

ADDAX COMPOSITE COUPLINGS

- Lightweight composite design delivers the lowest Total Cost of Ownership
- Center section weighs less than 25% of comparable steel spacer, reducing overhung loads and eliminating need for special lifting equipment during installation
- Spans the distance from motor to gearbox without intermediate support bearings
- 24 hour expedited lead time available

Find out more: rexnord.com/addax

FALK® CTA SERIES GEAR DRIVES

- Direct replacement of common Amarillo®* gearboxes
- Available in 4 sizes (255, 275, 310, 350) and 19 standard ratios
- After-market support — select ratios available at reduced lead times
- Superior performance and reliability yields operational savings and increased system uptime
- QR Code functionality to simplify asset management

Find out more: rexnord.com/CTA

MARATHON® TEFC MOTORS

- Redesigned totally enclosed cast iron construction
- Built to withstand the corrosive conditions of Cooling Tower applications with IP55 protection
- Energy savings and operating cost reduction with IE3 efficiencies
- Dual frame mounting holes on base provide easy and versatile mounting
